SUMMARY

Front-End Developer with **4 years of experience** in building scalable, high-performance, and responsive web applications using **React.js, JavaScript (ES6+), HTML5, and CSS3**. Skilled in developing reusable components, integrating REST APIs, and optimizing application performance for better user experience. Experienced in modern UI frameworks, cross-browser compatibility, and delivering production-ready solutions in Agile environments.

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frameworks / Libraries:** React Js, Bootstrap, Material UI, Tailwind CSS
- **Tools:** VS Code, Git, GitHub, Postman, Chrome DevTools
- **Platforms:** Web Applications, Windows, Vercel
- **Others:** Responsive Design, On-Page SEO, Web Performance
- **Soft Skills:** Problem Solving, Team Collaboration, Communication, Adaptability, Time Management, Attention to Detail

EXPERIENCE

- **Trans Global Geomatics Pvt Ltd** Hyderabad
Front-End Developer 2022 – Present
 - Developed and maintained 15+ responsive web applications using React.js, HTML5, CSS3, and JavaScript (ES6+).
 - Built reusable and scalable UI components using React, improving development efficiency and code maintainability.
 - Integrated RESTful APIs using Fetch and Axios to handle dynamic data rendering and asynchronous operations.
 - Optimized application performance using lazy loading, code splitting, and efficient state management techniques, reducing load time by 40%.
 - Implemented responsive design using Bootstrap and Tailwind CSS to ensure cross-device compatibility.
 - Debugged and resolved frontend issues using Chrome DevTools, ensuring smooth user experience.
 - Collaborated with backend developers to integrate APIs and deliver seamless frontend functionality.
- **DDUGKY** Vijayawada
Web Developer Intern Feb 2022 – July 2022
 - Developed responsive web applications using HTML5, CSS3, JavaScript, and React, ensuring cross-browser compatibility.
 - Implemented dynamic UI features including DOM manipulation, form validation, and reusable components.
 - Assisted in API integration, debugging, and performance optimization using Chrome DevTools.

PROJECTS

- **Fleet Management System**
 - Developed responsive fleet dashboards using React.js for managing vehicles, drivers, and status monitoring.
 - Built reusable UI components and integrated REST APIs for dynamic data rendering.
 - Implemented advanced filters, search, and reporting features for efficient fleet operations.
 - Optimized performance and ensured cross-device compatibility using Bootstrap and modern CSS.
- **Trip Management System**
 - Developed trip creation and tracking modules using React.js with real-time UI updates.
 - Integrated REST APIs to display trip routes, status, and analytics dynamically.
 - Designed interactive UI for showing trip track on the Leaflet map, monitoring, and reporting dashboards.
 - Implemented responsive and user-friendly interfaces with dynamic filters and controls for efficient trip management.
- **Coal Mining Website**
 - Developed a responsive, mobile-friendly website using React.js and Tailwind CSS with modern UI design, cross-browser compatibility, and performance optimization.
 - Implemented dynamic sections for mining services, product listings, fleet details, and recent updates related to mining infrastructure.
- **IoT Solution Website**
 - Developed a responsive frontend using React.js and Tailwind CSS for real-time monitoring dashboards with dynamic data visualization and user-friendly UI.

- Built product showcase and UI components for GPS tracking solutions across industries including fleet management and mining, highlighting advanced multi-industry use cases.

- **School Management System**

- Developed a responsive frontend using HTML5, CSS3, and JavaScript for managing academic data and user workflows.
- Designed intuitive UI for students and administrators with optimized UX and seamless navigation.
- Implemented dynamic features such as form validation, data handling, and interactive components to enhance user experience.

- **Beauty Parlor Website**

- Designed and developed a modern, responsive website using HTML, CSS, JavaScript, and Bootstrap.
- Enhanced user engagement and increased booking conversions by 25% through improved UI/UX design.

ACHIEVEMENTS

- Successfully delivered 10+ client projects within deadlines while maintaining high UI/UX standards.
- Recognized by team leads for building reusable React components that reduced development time by 30%.
- Implemented real-time vehicle tracking and trip monitoring features using Leaflet and REST APIs.

HOBBIES

- Drawing and creative sketching.
- Watching technology-related content and learning about new tools.
- Listening to music and exploring different genres.
- Playing outdoor games and staying active.

EDUCATION

- **Vikas College of Engineering**
B.Tech in Computer Science

Vijayawada
2018 – 2022
